IMLADRIS

The definition of maritime elegance

IMLADRIS is a 24.92-metre superyacht-level luxury catamaran and the largest Lagoon ever built, representing a masterclass in French engineering and contemporary design. Launched in 2025, she sets a new benchmark for space, comfort, and refined living at sea. With her impressive 11-metre beam and signature dual-hull stability, she offers exceptional composure whether cruising at 9 knots or resting at anchor, while her panoramic glass superstructure transforms the interiors into a light-filled sanctuary seamlessly connected to the ocean.

A SANCTUARY OF LIGHT AND SPACE

Accommodating up to 8 guests in 4 spacious cabins, IMLADRIS combines the scale of a grand estate with the intimacy of a private retreat. Her layout includes three double cabins and one convertible cabin, featuring a master suite with a king bed, two queen cabins, and a twin cabin with two single beds, ideal for families or groups of friends. The master cabin serves as a true sanctuary, complete with a private swim platform and a generous walk-in closet. Throughout, a contemporary palette and bespoke finishes frame the sea as a constant, ever-changing backdrop.

UNRIVALLED SPACE. UNCOMPROMISED EXPERIENCE

Her outdoor spaces are nothing short of spectacular. Expansive teak deck areas, with sun-drenched lounging zones on the bow and a generous aft deck complete with a hydraulic swimming platform, create a seamless indoor-outdoor lifestyle and an unrivalled beach club atmosphere for swimming, dining, and socialising.

From tranquil coastal cruising to action-packed days at anchor, IMLADRIS delivers an unparalleled catamaran charter experience, sleek, spacious, and designed to impress.

THE ART OF MODERN MULTIHULL DESIGN

At the heart of IMLADRIS, her dual-hull architecture defines a new standard of stability and balance at sea, minimizing motion for a smooth and composed cruising experience. The wide beam not only enhances comfort but also creates expansive living spaces and natural separation for greater privacy.

This modern multihull design is as efficient as it is elegant, offering reduced drag and effortless performance, where space, stability, and fluid movement come together seamlessly.
