BOATSTERS BLACK

## The Plus of Freedom

---

There is a moment, somewhere between coastline and horizon, when time begins to slow. The sea becomes quieter. The air becomes lighter. And the world ashore feels infinitely distant.

The Nuvolari Lenard 52 PLUS was conceived for that moment.

Not simply as a yacht, but as a floating expression of freedom, crafted for owners who understand that true luxury is not measured in excess, but in space, silence, elegance, and the ability to move through the world entirely on your own terms.

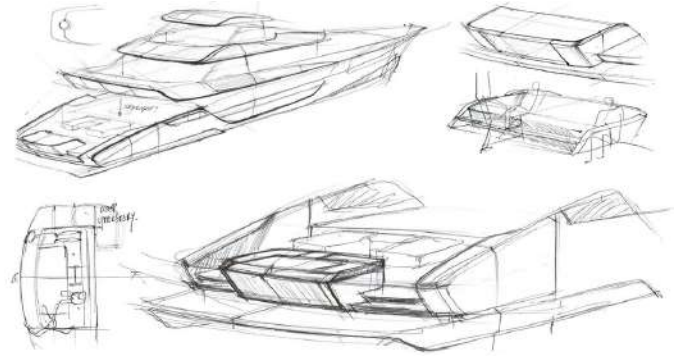

At 52.6 metres and below the coveted 500GT threshold, the NL 52 PLUS achieves something rare in modern yacht design: a harmonious balance between timeless Italian styling, intelligent engineering, and an atmosphere that feels both grand and deeply personal.

Designed by Nuvolari Lenard and built by Mengi Yay, every line reflects decades of experience at the highest level of superyacht creation. From the first sketch to final delivery, the yacht embodies a philosophy where architecture, lifestyle, and the sea exist in perfect dialogue.

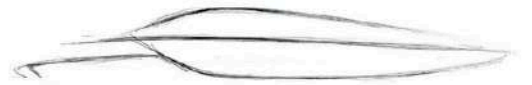

# LIGHT, SPACE & THE INFINITE SEA

---

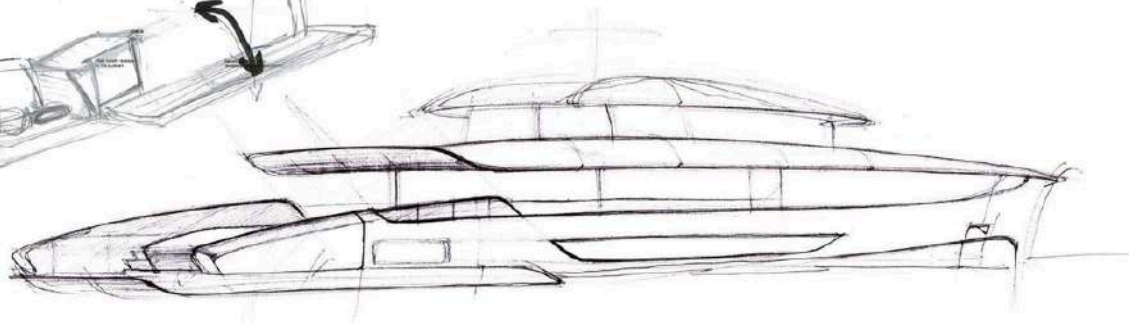

The NL 52 Plus's beach club unfolds into a startling drama at sea, expanding the stern into a vast social platform with hydraulic terraces that meet the tide. An integrated pool blurs the line between deck and ocean, offering 270° views that invite the horizon into the heart of the yacht. Sheltered yet connected, this luminous space becomes the ultimate stage for both high-energy gatherings and tranquil escapes.

EXCEEDING 1 M, IS POSSIBLE IF  
YOU MAKE PART OF  
BULKHEAD IN GLASS.

## THE ART OF ESSENTIAL LUXURY

---

Inside the NL 52 Plus, interior sophistication is expressed through a philosophy of "Essential Luxury," where refined design meets the youthful spirit of Mediterranean living. Expansive floor-to-ceiling glazing and continuous glass panels transport the ocean inside, while the interiors, masterfully curated by Nuvolari Lenard, feature a seamless blend of organic textures and sustainable, high-end finishes. Every space is crafted with intention, from the private owner's suite with its independent slide-out balcony to the fluid, light-filled salons creating a sanctuary that is as timeless as the horizon it faces.

## THE OPEN-AIR THEATRE OF THE SEAS

---

Forward of the bridge, the NL 52 Plus unveils a hidden drama: a secluded foredeck lounge that transforms into an open-air cinema at the touch of a button. As the sun dips below the horizon, a pop-up screen rises to meet the stars, creating a private theater where the only soundtrack is the gentle lap of the waves. It is a space of rare versatility, offering a sun-drenched sanctuary by day and an enchanting cinematic escape by night a true testament to the yacht's spirit of innovation and cinematic flair.

Created to envelop both owner and guest in absolute comfort, the NL 52 Plus welcomes up to ten guests across five masterfully appointed suites. Her crew quarters, accommodating nine across five cabins, feature a dedicated Captain's cabin on the upper deck to ensure the highest standards of seamless service. Beyond the expected, she offers sophisticated enhancements: a private owner's study, a lower-deck sauna and gym, and cutting-edge A/V systems; each space a customizable expression of Nuvolari Lenard's "Essential Luxury" philosophy.

To complement the adventure, a full-beam tender garage forward houses a carefully curated inventory for discovery: a 7-meter main tender, a dedicated crew tender, and an array of water toys; each discreetly stowed to preserve the yacht's sleek lines while remaining ever-ready for the next moment of delight.

NUVOLARI  LENARD

Founded in 1990 near Venice by Carlo Nuvolari and Dan Lenard, Nuvolari Lenard has become one of the world's most respected names in superyacht design. Combining naval architecture, engineering, exterior styling, and interior design under one vision, the studio has created some of the most iconic yachts ever built.

Their philosophy is deeply rooted in Italian culture, where architecture, art, and the relationship with water naturally influence every project. Over the years, Nuvolari Lenard has collaborated with leading shipyards including Oceanco, Lürssen, CRN, Palmer Johnson, Perini Navi, Amels, and Ferretti Group.

Today, the studio remains internationally recognised for creating yachts that combine timeless beauty with technical innovation, always guided by a deeply human understanding of life at sea.

Established in 1964, Mengi Yay is one of Turkey's leading yacht builders, recognised for combining craftsmanship, engineering expertise, and modern production capability. Over six decades, the shipyard has delivered more than 200 vessels ranging from sailing yachts and motor yachts to custom steel and aluminium superyachts.

Located in the Tuzla Shipyards region, Mengi Yay operates advanced facilities capable of building multiple large yachts simultaneously, supported by dedicated production halls and an experienced in-house team.

The collaboration between Mengi Yay and Nuvolari Lenard brings together Turkish shipbuilding excellence and Italian design mastery, resulting in a new generation of sub-500GT yachts defined by elegance, reliability, and intelligent innovation.
