## BGX73

### An Exceptional Expression of Modern Luxury at Sea

---

Built in 2024 and representing the most customised BGX73 to have left the Bluegame shipyard, hull #26 is a rare opportunity to acquire a virtually new, turnkey superyacht without the wait or complexity of a new build. Spec'd in meticulous detail by a highly experienced owner, every aspect of this 22.7-metre sport cruiser from its Volvo Penta IPS 1350 pod drives and Seakeeper gyroscope stabiliser to its curated Living Divani soft furnishings reflects a level of thought and investment that simply cannot be replicated off the shelf.

Currently moored in San Remo on the Italian Riviera, Join 4 Life accommodates six guests across three beautifully appointed cabins, with a separate crew cabin and just 250 engine hours on the clock. Available for immediate viewing, this is a singular opportunity to own the finest example of the BGX73 afloat.

# SCULPTED TO COMMAND ATTENTION

---

From every angle, the Bluegame BGX73 #26 makes an immediate and lasting impression. Her deep-V GRP hull finished in a striking two-tone palette with carbon and GRP superstructure cuts a purposeful silhouette that is equally at home gliding through a superyacht marina or carving through open water at 30 knots.

The expansive teak stern platform opens the yacht to the sea, flanked by a fully equipped wetbar and integrated crane, while twin carbon biminis shade generous lounging areas fore and aft. The signature panoramic glazing of the deckhouse dissolves the boundary between inside and out, and every exterior detail from the custom-painted Garmin radar to the Humphree interceptors has been specified to the highest possible standard.

## A PRIVATE WORLD OF CONSIDERED ELEGANCE

---

Step aboard, and the outside world falls away. Living Divani sofas, Zimmer & Rohde fabrics, and bespoke lighting create an atmosphere closer to a private residence than a boat, while a fully equipped Miele galley and drop-down ceiling television make the main saloon as functional as it is refined.

Below, three beautifully appointed cabins offer genuine privacy and comfort. The full-beam owner's suite features a walk-in wardrobe, vanity desk, and a luxurious en-suite with double sinks and a rainfall shower, while the VIP and guest cabins are finished to the same exacting standard. Throughout, the attention to detail is extraordinary, the hallmark of an owner who left absolutely nothing to chance.

# PERFORMANCE WITHOUT COMPROMISE

---

Twin Volvo Penta IPS 1350 pod drives deliver 2,000 horsepower and a 30-knot top speed, while a Seakeeper 16 gyroscope ensures exceptional comfort at anchor and underway. With just 250 engine hours logged, she is virtually new in every sense.

Twin Whisper Power Piccolo generators, a triple 16-inch Volvo glass cockpit, and a fully integrated Garmin navigation suite complete a specification built for confident blue-water cruising. Every system has been upgraded and refined, making this one of the most completely specified motor yachts at this size afloat.
